

Private Lesson Instructor List

Call now to start weekly lessons! Teachers' studios fill up quickly and there is a shortage of teachers in the area. Make sure to ask your teacher where he/she teaches, how to pay (monthly or weekly), and the expectations for practicing. Any agreement that you and the teacher make is a private contract between you both. Our store is providing you this list as a convenience and service to you. These teachers have been added to our store list at their request, and we are not recommending one teacher over another. The store will not be held liable for any problems that may occur. Shop around for a teacher that will best suit your schedule and your child's work habits and learning styles. Most teachers will recommend that a parent attend at least the first few lessons so that you and your child will both be clear on how the lessons will be structured and conducted.
